

KidsBlocker

KidsBlocker is an easy solution to help manage family access to the home internet.

- ✓ **Turn on/off the internet access to any or all devices in a home network, from anywhere**
- ✓ **Provide an access schedule for any device**
- ✓ **Provide internet filtering by device - to protect from inadvertent inappropriate exposure**
- ✓ **Make it as easy as possible to configure and operate**

The KidsBlocker solution consists of:

- **KidsBlocker Wireless Router** - connects to your existing home internet
- **KidsBlocker Cloud Server** - provides web access, control & filtering
- **KidsBlocker phone app** - control of your home network from any location

We are rolling out a 'commercial trial' to the next 100 families keen to participate.

In recognition of your participation as an early adopter, please use the *promotion code* – **NEXT100**. This code will entitle you receive a 20% discounted router and free technical support to walk you through the installation and setup.

We're sure that you'll share our vision to provide an enjoyable and safe online experience for your family.

Please visit www.kidsblocker.com
to order your KidsBlocker router and subscription.

**PROTECTING YOUR FAMILY FROM HARM IS JUST AS IMPORTANT ONLINE AS
IT IS IN THE REAL WORLD.**
